

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

PREFACE.

When I first began my career as professor of French at Addiscombe College, I was struck with the great number of ridiculous mistakes made by the students in translating English into French. My first impression was that perhaps they did not take the trouble to consult their dictionary; but I soon found out that the fault was not altogether theirs, but that of the various dictionaries placed in their hands. By running over some of these books, I found that none of them gave all the different acceptations of words, and that the acceptations given were jumbled together indiscriminately, without offering assistance of any kind to the pupil, who was obliged to take his chance, and make his choice at random.

Another thing which struck me in these books was the absence of new words that had come into use within the last half-century; in consequence of which the learner was at a loss whenever he had to translate any of the more modern French authors, or anything relating to steam, railways, electricity, and many other branches of the arts and sciences.

Since that period, something has been done towards remedying this defect; still the want of a good school French and English Dictionary is a fact acknowledged by both teachers and pupils; and, notwithstanding all the difficulties and obstacles which I anticipated from such a laborious task, I set to work with the firm determination to supply it if I could. At a time when the two greatest European nations are so intimately united, not only by bonds of friendship, but still more so by their extensive commerce, their transactions of all kinds, and their constant intercourse, a dictionary made for *our own days* will, I trust, be acceptable to both English and French.

The dictionary I have now the pleasure to offer to the Public is not a mere copy of its predecessors, but an entirely new work, the fruit of seven years of laborious application and research; a dictionary based on the best authorities of the present day, viz.: in French, on the *Dictionnaires de l'Académie, Boiste, Bescherelle*, etc.; in English, on the *Dictionaries of Johnson, Webster, Richardson*, etc.; and on the most approved technical and scientific dictionaries of both languages.

I will explain, as briefly as possible, the plan of this dictionary, and point out its leading characteristics.

1. *Insertion of new words in general use in each language.*

Here special care has been taken to insert all the new words that have come into use in each language within the last half-century, even the most

Digitized by Google

recent ones, such as *revolver*; *photograph*; *screw-ship*; *stereoscope*; *gasometer teetotaller*, *potichomanie*, etc. It has been a sufficient reason for me that a word should be generally used, though not found in any dictionary, to give it a place in this book. For what is the use of a dictionary if it is not to give the learner the means of translating any word that he may meet with in reading or in familiar conversation?

2. *Insertion of compound words not translated literally.*

I have taken great care to insert in this dictionary the greatest part of compound words not translated literally. The omission of such words in school dictionaries is a great mistake; for how can a learner translate hundreds of words like the following: *engine-man*, mécanicien, machiniste; *air-stove*, calorifère; *gas-meter*, gazomètre; *stock-broker*, agent de change; *stock-book*, magasinier; *stock-exchange*, bourse, etc., if not given in his dictionary? None can be translated literally, and many which are compound in one language are simple in another, as may be seen in the above-mentioned examples. In further illustration of this point, the reader is requested to refer to such words as *fire*, *foot*, *bed*, *gun*, *horse*, *book*, *sea*, etc.

3. *Acceptations of the words separated by figures, with* DIRECTIONS *as to the choice to be made of the proper word in translating from English into French.*

This I consider the most important feature of this dictionary, as it must materially assist the English pupil by giving him a sure means of selecting the French word best adapted to express his meaning. The different senses of each word are separated from each other by figures, to prevent their being taken for synonymes of the same acceptations. When two or more words come under the same number they are synonymous, or nearly so. After each figure in the English-French part, I have inserted in parentheses words or abbreviations, called here *directions*, which mark distinctly the various meanings of the English word required for translation into French. This I hold to be of the last importance in translation, as will be seen from the subjoined specimen of a word as found in other dictionaries and in this.

OTHER DICTIONARIES.	THIS DICTIONARY.
MATCH, s. *mèche, allumette, partie*, f., *jeu*, m., *joute*, f., *mariage, parti, pareil, semblable, égal, assortiment*, m.	MATCH, s. 1. (lucifer) *allumette*, f.; 2. (artil.) *mèche*, f.; 3. (marriage) *mariage*, m., *alliance*, f.; 4. (person to be married) *parti*, m.; 5. (equal) *égal, pareil*, m.; *partie égale*, f.; 6. (suit) *assortiment*, m.; 7. (contest) *lutte*, f., *concours*, m.; 8. (at play) *partie*, f.; 9. (in fighting) *combat*, m.; 10. (in sailing) *course*, f., *joute*, f.; 11. (with swords) *assaut*, m.; 12. (in wrestling) *lutte, joute*, f.

Now, in a case like this (and half the words are so), when the English word has so many meanings entirely different, and separated only by a comma, it is next to impossible for a learner to pick out the proper word. In nine cases out of ten he will choose the wrong one. As for instance, "*That young lady is the*

richest match in the town," was, not long ago, brought to me thus translated: '*Cette jeune demoiselle est la plus riche* ALLUMETTE *de la ville.*" — "*The army took flight,*" "*l'armée prit le* VOL." — "*In a desperate case,*" "*dans un* ÉTUI *désespéré.*" Such absurd mistakes could not have been made, had this dictionary been placed in the pupil's hands. I might call the reader's attention to hundreds of other similar words, but I refrain from doing so, as the difference may be seen at every page of this dictionary. I would suggest, however, a few words for comparison, such as *discharge* (verb *and* noun); *close* (adj.); *draw*; *flight*; *lead*; *leg*; *mouth*; *stock*; *train*, etc.

In the French-English part the *directions* have been inserted only when thought necessary; as the context, the pupil's own good sense, and the knowledge he possesses of his own language will be sufficient to enable him to choose the proper word in English without much difficulty.

4. *Prepositions annexed to the French verbs and adjectives.*

One of the greatest difficulties for the English learner in translating English into French, is to know which prepositions the French infinitives and adjectives require after them. Hence, the constant mistake of using *à* for *de*, or *vice versâ*, or using *à* and *de* for *pour*, etc., as, I like to read, *j'aime* DE *lire*, for À *lire*. I trust I have removed this obstacle by annexing to the verbs and adjectives the prepositions which they require, as may be seen in every page of the book, viz.: ATTEND, v. n. *s'appliquer* (*à*), *s'occuper* (*de*); FIT, adj. *propre* (*à*), *bon* (*à*); *convenable* (*de*), *à propos* (*de*), etc.

5. *Examples of the most familiar idioms and phrases.*

Idioms and phrases in a dictionary are, beyond all doubt, a very great assistance to the learner in composition and translation; and under this impression I have introduced into this dictionary as many idioms and illustrative phrases as space would allow me. But it cannot be expected, that in a work of this size every idiom and phrase in use in both languages should be given. Hence, I have been careful to make a selection of those which are of the most familiar and daily use.

6. *Principal tenses of all irregular verbs.*

In both parts of this dictionary, the principal tenses of all the irregular verbs have been given, for the purpose of assisting the learner in the conjugation of a verb without having recourse to the grammar, as may be seen at — FAIRE, v. a. [Faisant, fait; je fais, je fis, je ferai]—GO, v. n. [WENT; GONE].

7. *Typographical arrangement.*

I would beg to call the attention of the Public to the typographical arrangement of this dictionary. It will be easily perceived that this is not a confused

assemblage of words and phrases jumbled together, as in most of the dictionaries of the two languages, so as to oblige the learner to read through a whole column of the book to find the word or phrase which he wants. The order of this dictionary is as follows: — 1. The acceptations of the word with the figures and *directions*. 2. The idioms and phrases quite separated from the meanings by forming a new paragraph, and likewise arranged in alphabetical order, each of the leading words beginning with a capital letter, so as to be more conspicuous, as may be seen at the words *affaire*, *coup*, *feu*, *pied*, *train*, *vapeur*, etc.; *paper*, *room*, etc. 3. The compound words, when there are any, also in alphabetical order, and printed in a different type, as may be seen at the words *bed*, *sea*, *gun*, etc. 4. All the English prepositions or adverbs annexed to a verb the meaning of which they frequently alter essentially, have been carefully arranged in alphabetical order, and printed in black letters, viz: *to run* **away**; *to* — **back**; *to* — **down**; so as to strike the learner's eye, and save him the trouble of perusing sometimes a whole page to find the word he is looking for. See the verbs *to set*, *to run*, *to put*, etc.

To render this work worthy of the attention of the Public, I can honestly say that I have spared neither time nor labour. Never relying on my own knowledge, I have carefully consulted, not only every work possessed of any merit, but also every competent person, whether in Paris or in England, who could give me any useful information. To Dr. Cauvin, one of the editors of Brande's "Dictionary of Science, Literature, and Art," I am more especially indebted for his valuable aid and advice throughout. I am not presumptuous enough to think that I have fallen into no mistakes, but I confidently trust that this dictionary will be found a great improvement on all the works of this kind published before. How far I have succeeded, the Public must determine.

EXPLANATION OF THE SIGNS

USED IN THIS DICTIONARY

† Signifies that the *gn*, *l*, or *ll*, is liquid.

' Signifies that the *h* is aspirated.

— Indicates the repetition of the leading word.

Before final letters or syllables, points out the masculine termination, which is to be changed into the feminine: as, HEUREU-X, SE, *heureux*, m., *heureuse*, f.; CRÉAT-EUR, RICE, *créateur*, m., *créatrice*, f.

The *figures* in both parts indicate the different senses of the word.

Words or abbreviations in parentheses, printed in Roman character, serve to complete the sense of those words which precede or follow them, or indicate the art, trade, profession, science, etc. to which they relate.

French prepositions. — In the English-French part, all the prepositions annexed to the French verbs and adjectives, in parentheses, are to show what case they govern: as, *propre* (*à*), fit for; *comblé* (*de*), loaded with; *aimer* (*à*), to like to; *conseiller* (*de*), to advise to.

Irregular verbs. — In the irregular verbs, in parentheses, of the French-English part, the tenses are placed in the following order: *Participle present — Participle past — Indicative present — Past definite — Future:* as, FAIRE, v. a. [Faisant, fait; je fais, je fis, je ferai]. In the English-French part, the first word is the *Preterit*, and the second the *Participle past*: as, Go, v. n. [WENT; GONE].
